

The vitality program, developed in collaboration with the HC Health agency, consists of five subjects this year. Every colleague* can register for one subject per year.

Workshop 'Embrace your talent'

During this interactive workshop you will start working with themes about talent and employability under the guidance of a talent coach.

After completing this workshop you know what your strengths are and you can act on this.

HC Health organizes and facilitates the various coaching programs. They are also our partner in the field of business physiotherapy. The vitality program is an addition to the employment conditions and is available from now until the end of December. You can register via the external landing page of HC Health. For more information you can send an e-mail to vitality@vanlanschotkempen.com

*Colleagues with a Van Lanschot or Kempen contract, in which the probation period has expired. Unfortunately, external staff and trainees cannot participate in this program.
